CLASSROOMS

SMARTER LAYOUTS. BRIGHTER FUTURES.

HON saw today's evolved learning space coming years before it arrived. We did it by understanding the most effective teaching methods, then investigating how smarter spaces could enhance learning. So we designed affordable chairs, tables and desks that were more in tune with both teacher and student needs. That provided great versatility and encouraged stronger collaboration. When your school can do all that, you'll achieve a higher level of learning.

ANYTHING BUT COMMON

Studies show a growing percentage of learning happens outside the classroom, making common areas vital to the learning process. Comprised of change-of-pace lounges, varying-height tables, chairs and stools, these spaces provide a comfortable place for students to connect. Common areas also include that much needed faculty lounge where teachers can retreat during the workday. HON can make any break area more versatile and inviting with a combination of comfortable guest and lounge seating that offer teachers a place to relax, refuel and recharge before the bell rings.
